ADDITIONAL INFORMATION

1) **The system responsible for deposit protection.**

The Bank Guarantee Fund is responsible for the protection of deposits.

2) 3) **General scope of coverage.**

If the deposit is not available because the entity covered by the guarantee scheme is unable to fulfil its financial obligations, disbursements to depositors shall be made by the Bank Guarantee Fund. The maximum disbursement amount is the PLN equivalent of EUR 100,000 for each depositor in one entity covered by the guarantee scheme. It means that all deposits placed with the same entity covered by the guarantee scheme are added up in order to determine the amount covered by the guarantee. For example, if the depositor has the PLN equivalent of EUR 90,000 in a savings account and the PLN equivalent of EUR 20,000 in a current account with the same entity covered by the guarantee scheme, only the PLN equivalent of EUR 100,000 will be disbursed.

This method is also used where an entity covered by the guarantee scheme operates under different trademarks. Getin Noble Bank S.A. also operates under the names Getin Bank and Noble Bank. This means that the sum of all deposits made under one or more of these trademarks is guaranteed jointly up to the PLN equivalent of EUR 100,000. The average exchange rate published by the National Bank of Poland on the date of fulfilment of the guarantee condition, within the meaning of Article 2 item 10 of the Act of 10 June 2016 on the Bank Guarantee Fund, the deposit guarantee scheme and resolution (Journal of Laws, item 996), is used to calculate the PLN equivalent of the EUR amount for a given entity covered by the deposit guarantee scheme.

4) **Coverage limit for joint accounts.**

In the case of joint accounts, the limit of the PLN equivalent of EUR 100,000 applies to each depositor. However, deposits in an account to which two or more persons are entitled as members of a partnership, association or unincorporated organisational unit to which a separate act confers legal capacity, for the purposes of calculating the upper limit of the PLN equivalent of EUR 100,000, are aggregated and treated as a deposit of one depositor.

Where the funds or receivables of a depositor who is a natural person originate from:
